

GPL ELECTRIC STARTERS, LLC
ANNOUNCES THE FOLLOWING DESIGN CHANGES

NEW RING GEAR DESIGN – PART # 02-27

We have replaced the welded 2 piece ring gear with one machined from a solid piece of heat treated 4140 steel. This new design has much closer tolerances ensuring long life and smooth operation. The new ring gear replaces the old style, effective immediately.

WATER COOLED - RED INNER SPACER – PART # 02-28R

The water cooled inner spacer has been redesigned with a centering boss on the engine side to ensure proper centering on the spacer. Effective immediately

FAN & WATER COOLED - RED & SILVER OUTER SPACER PART # 02-29 RO/SO

The fan or water cooled outer spacers have been machined in a different way to reduce weight while still ensuring proper strength. Effective immediately
